

Pipe Spring National Monument

PUBLIC USE COUNTING AND REPORTING INSTRUCTIONS

Following are detailed instructions for collecting and reporting data to be entered on Form 10-157, Revised, Monthly Public Use Report by Pipe Spring National Monument. These instructions are effective the date of issuance and will continue in effect unless changed by amendment or by memorandum from the Public Use Statistics Program Center to the superintendent approving a requested change.

Each item below describes the procedures to be followed in collecting public use data and summarizing the various elements of those data for entry on the corresponding line on the 10-157, Monthly Public Use Report.

Recreation Visits

1. A pneumatic tube traffic counter is located across the road at the park entrance. The traffic count is divided by four to adjust for axle counts and vehicles entering and exiting the park. The adjusted traffic count is reduced for non-reportable vehicles (May through October 455 or November through April 254) and buses. The reduced traffic is multiplied by the persons per vehicle multiplier of 2.4.
2. The number of buses is multiplied by the persons per bus multiplier of 40.

Non-recreation Visits

Non-recreation visitors are estimated as 150 per month.

Recreation Visitor Hours

The number of recreation visits is multiplied by one hour.

Non-recreation Visitor Hours

The number of non-recreation visits is multiplied by thirty minutes.

Special Use Data

- Line a. Visitors to the visitor center
- Line b. Visitors to the fort
- Line c. Trail Users
- Line d. Special activity users
- Line n. The number of buses
